Section 1.0 — League Structure and Governance

1.0A Legal Notice of Supersession

This document constitutes the supreme regulatory authority for the North American Motocross Championship (NAMC). It officially supersedes all prior NAMC rulebooks including v1.0, v9.3, v11.0, and all legacy documentation containing "4S" or "2S" class designations. All participants — riders, team managers, charter owners, track partners, officials, and media — are strictly bound by the mandates herein. In any conflict between this document and any prior version, this document governs without exception.

1.1 Official Name

The official name of the league shall be the **North American Motocross Championship (NAMC)**. The NAMC serves as both the operating league and the sole sanctioning body for all events, series, and championships conducted under its authority. The league's domain is namcmotocross.com. The official tagline is **"The Rising Tide."**

1.2 Mission Statement

The NAMC is a professional, rider-first motorsport entity built on radical financial transparency and structural disruption. The league exists to permanently end the pay-to-race model that has exploited professional motocross athletes for decades. In the NAMC, riders are paid to perform. Every rule, every structure, and every financial decision exists to protect, compensate, and elevate the professional motocross athlete.

1.3 Core Philosophy

- Riders are the product. The league does not exist without them.
- No rider pays to race. The NAMC eliminates all entry fees for contracted professionals.
- Compensation is guaranteed, transparent, and paid on time — always within 24 hours of Sunday's final Main Event.
- The league is sanctioned by the CVMA and operates under full CVMA safety and technical charters.
- Energy drink and stimulant beverage companies are permanently banned from all team names.

1.4 Official Brand Standards

All NAMC documentation, broadcast graphics, digital assets, and team materials must adhere to the following non-negotiable visual standards:

Element	Standard
Primary Background	Absolute White — #FFFFFF — locked for all primary content areas
Inferno Red	#E10600 — Primary headers, action elements, and accents
Carbon Black	#0B0B0D — Body text and structural headers
Championship Chrome	#C7C9CC — Metallic accents and secondary data
Steel Gray	#5A5F66 — Supporting UI elements
Track Earth	#3A2A1E — Natural loam reference; track surface identity
Design Style	Flat design only. Zero gradients, drop shadows, or 3D effects. Ever.
The Claw Marks	Non-negotiable branding element. Primary symbol of rebellion and impact. Must appear on all secondary branding and apparel. Cannot be omitted, resized beyond spec, or altered.
Logo Integrity	NAMC shield and wordmark displayed without distortion. Spacing buffer equal to the height of the "N" in the wordmark must be maintained at all times.

1.5 Official Lexicon Compliance

The following terminology mappings are mandatory for all official communications, broadcast graphics, and team registrations. Use of prohibited terms constitutes a Tier-One compliance violation subject to immediate fines.

Prohibited Term	Mandatory Replacement
"Privateer"	"Independent Team rider" — always, without exception
"Development class"	"Restricted Spec" — specifically for the 250P class
"Supercross" / "Stadium"	"All-Outdoor Natural Terrain" — no indoor or stadium references
"4S" / "2S" designations	Class names only: 350 Pro, 250, 250P, Women's 250
"Rookie" / "Masters"	Permanently retired — use class names only
"A-Main" / "B-Main"	"Main Event" — unified 40-rider gate only
"Dual Charter"	Eliminated — S4 architecture only in Year One

1.6 Three-Year Championship Rollout

Year One (2027): S4 Four-Stroke Championship only. 20-round all-outdoor season. Four classes: 350 Pro, 250, 250P, Women's 250.

Year Two (2028): S2 Two-Stroke Championship launches in outdoor format only.

Year Three (2029): Full integration. S2 Two-Stroke Championship expands to full schedule alongside S4.

1.7 Charter System Overview

The NAMC operates on a charter-based franchise system. Year One launches with **20 charters**. Factory and manufacturer teams receive preference in the charter allocation process. All remaining slots are open to Independent Teams. There is no fixed factory/independent split — the league fills all 20 charters based on applicant qualification and commitment. Charters are protected franchise assets with long-term equity value.

1.8 The Sentinel Officiating Corps

The NAMC Sentinel officiating corps is a **24-member unit** structured as a 12+12 model to ensure both universal league consistency and localized venue expertise.

Traveling Sentinels (12 Members)	Local Sentinels (12 Members)
Core league-standardized unit deployed to every round of the 20-round championship. Ensures rigid, uniform enforcement of regulations and professional standards across all three nations — USA, Canada, Mexico.	Site-specific venue experts integrated with the traveling unit at each venue. Provide localized logistical knowledge, terrain-specific oversight, and regional facility expertise.

The **Chief Sentinel** commands the combined 24-member corps and holds supreme, final authority on all on-track determinations, safety calls, and immediate race-day rulings. Chief Sentinel decisions are final and cannot be overridden mid-event. Post-event appeals are directed to the Court of Appeal.

Professional Responsibilities: The 24-member corps is specifically tasked with: gate oversight and continuous track awareness; technical compliance inspection and enforcement; monitoring Section 10.3 (The 1,000-Mile Travel Rule); verifying bye-week compliance; ensuring logistical welfare of all riders and teams across the 24-week calendar; and pre-race tire inspection to verify scoop tire ban compliance at every round.

1.9 The NAMC Commission

The NAMC Commission is the supreme governing body composed of **9 members** with specific voting weights assigned to ensure balanced representation. The Commission manages all regulatory oversight, charter disputes, and structural rule changes.

- Quorum: 5 of 9 members required for any binding vote.
- Supermajority: 7 of 9 required for charter revocation, compensation rule changes, and structural amendments.
- Conflict of Interest: Commission members must recuse from votes where they hold a direct financial interest in the outcome.

1.10 Rule-Change Procedure

No rule change takes effect within the same season it is proposed. All proposed rule changes must be submitted to the Commission no later than 90 days before the following season opener. Teams receive notice of approved changes no later than 60 days before the season opener. Emergency safety rules may be enacted immediately by the Commission with a 7-of-9 supermajority vote.

1.11 Authority Limitations

The NAMC's jurisdiction is limited exclusively to NAMC events, venues, and official activities. The league holds no authority over a rider's personal life, outside sponsorships (except as governed by Section 4.12), or conduct at non-NAMC events unless such conduct directly and demonstrably harms the league's reputation or a fellow participant.

Section 2.0 — Charters and Team Ownership

2.1 Purpose of the Charter System

The charter system is the structural foundation of the NAMC. A charter is a protected franchise right to field a team in NAMC competition. Charters create stability, accountability, and long-term equity for team owners who invest in the league. Year One launches with 20 S4 charters.

2.2 Charter as a Protected Asset

A charter is a legitimate business asset. Charter holders may use their charter as collateral, sell it to approved buyers, or transfer it under NAMC approval. Transfer fee: **5% of the agreed sale price**, paid to the NAMC at closing. All transfers require Commission approval to verify buyer financial qualifications.

2.3 First-Year Ascension Process

In Year One, all 20 charters are provisional. At the conclusion of the 2027 season, charters convert to permanent status based on objective scoring across three equally weighted criteria:

Criterion	Weight	Measurement
Grid Occupancy Rate	33.3%	Percentage of assigned gates filled across all 20 rounds
Financial Compliance	33.3%	On-time payment of all rider contracts and league fees
Conduct Record	33.3%	Zero major conduct violations; response time to league communications

Teams scoring above the median on all three criteria receive permanent charter conversion. Teams below the median on any criterion enter a 60-day remediation period before permanent conversion is reconsidered.

2.4 Anti-Collusion and Common Ownership

No individual, entity, or affiliated group of entities may hold more than two charters simultaneously. Any ownership structure giving one party effective control over more than two charters — through equity, management agreements, or otherwise — is subject to Commission review and potential revocation.

2.5 Failed Charter Auction

If a charter is voluntarily surrendered or revoked by the Commission, it enters a sealed-bid auction open to all pre-qualified buyers administered by the NAMC League Office. Proceeds go to the surrendering or revoked party minus any outstanding league debts.

2.6 Charter Conditions and Tiered Enforcement

Violation	Tier	Consequence
Failure to fill assigned gate — "Management Failure"	Tier 1	Written warning; documented in charter record. Creates unrecoverable points deficit in Manufacturer's Cup standings.
Repeated Management Failure (3+ rounds)	Tier 2	Financial penalty; public notice to league
Financial default on rider contracts	Tier 3	Charter suspension; Commission review within 14 days
Fraudulent conduct or prohibited ownership	Tier 4	Charter revocation; permanent ownership ban

2.7 Insurance Requirements

- Rider injury insurance covering medical, rehabilitation, and lost wages for all rostered riders.
- Commercial general liability minimum \$5,000,000 per occurrence.
- Proof of insurance submitted to NAMC League Office no later than 30 days before the season opener.

2.8 Team Manager Licensing

Every charter team must designate a licensed **NAMC Team Manager** as primary point of contact. The Team Manager must complete NAMC certification before the season opener, pass a background check, and agree to the NAMC Code of Conduct. The Team Manager is personally responsible for the team's regulatory compliance throughout the season.

Section 3.0 — Classes and Race Format

3.1 S4 Championship Class Structure

Class	Displacement	Regulatory Status	Role
350 Pro	350cc 4-Stroke	Premier Class	Top tier of professional competition
250	250cc 4-Stroke	National Spec	Primary professional class
250P	250cc 4-Stroke	Restricted Spec	Mandatory intake restrictors and spec ECU
Women's 250	250cc 4-Stroke	Equal Pay / Equal Status	Full professional championship

3.2 Class Label Rules and Prohibited Terminology

Official class designations are: **350 Pro, 250, 250P, Women's 250**. These are the only acceptable class names in all official NAMC communications, broadcast graphics, and team registrations. All prohibited terminology is defined in the lexicon compliance table in Section 1.5. "Privateer" is strictly banned — all non-factory participants are referred to exclusively as **Independent Team riders**.

3.3 Roster Formula Per Charter

Roster Tier	Count	Detail
Active Roster	8 riders	2 per class (350 Pro, 250, 250P, Women's 250)
Male Bench	2 riders	Pre-approved at roster submission; \$50,000 retainer
Female Bench	1 rider	Pre-approved at roster submission; \$50,000 retainer
Total Per Charter	11 riders	All contracted; bench requires no advance activation approval

3.4 Grid Size — Unified 40-Rider Gate

All championship classes use a **unified 40-rider gate**. The A-Main/B-Main split is permanently eliminated. All qualified riders compete in a single championship gate for points. Every gate position counts toward both Rider's Cup and Manufacturer's Cup standings.

3.5 Race Weekend Structure

Day	Schedule
Friday	Track walk, practice sessions, press obligations, technical inspection
Saturday	250P and Women's 250 Sprint Race + Main Event
Sunday	350 Pro and 250 Sprint Race + Main Event (Showcase Finals)

3.6 Race Format

Race Type	Duration	Manufacturer's Cup Weighting
Sprint Race	12 minutes + 1 lap	0.5x
Main Event	35 minutes + 2 laps	1.0x

3.7 Qualifying Format

Qualifying is conducted in groups of 12 riders using a hot lap format. Each rider receives a timed flying lap. Top finishers from each qualifying group advance to gate pick selection. Qualifying order is determined by prior-round finishing position for established competitors; Year One qualifying is seeded by submitted OVR rating.

3.8 18+ Absolute Age Floor

The minimum age for any NAMC professional participant — in any class — is **18 years old** as of the season opener. This is an absolute hard floor. There are no developmental exemptions, age waivers, parental consent overrides, or exceptions of any kind.

Section 4.0 — Rider Contracts, Compensation, and Draft

4.1 Minimum Annual Guaranteed Salaries

Class	Min. Annual Salary	Per-Round Appearance	Season Appearance Total	40th Place Min.
350 Pro	\$400,000	\$1,000	\$20,000	\$5,000
250	\$200,000	\$1,000	\$20,000	\$5,000
250P	\$100,000	\$1,000	\$20,000	\$5,000
Women's 250	\$100,000	\$1,000	\$20,000	\$5,000
Reserve/Bench	\$50,000 retainer	\$1,000 when active	Varies	\$5,000

4.2 Appearance Fee

Every contracted rider receives a **\$1,000 per-round appearance fee** for all 20 race weekends — **\$20,000 total season commitment**. This fee is paid for race weekends only. Bye weeks are not paid. The fee is guaranteed regardless of race result or finishing position and is paid within 24 hours of Sunday's final Main Event at each round.

4.3 40th Place Minimum Payout

A guaranteed minimum payout of **\$5,000** is issued to the 40th place finisher in every Main Event in every class at every round. This floor applies equally to all four classes — 350 Pro, 250, 250P, and Women's 250. No contracted rider who takes the gate and finishes a Main Event earns less than \$5,000 from that race.

4.4 No Salary Cap

The NAMC does not impose a salary cap. Teams are free to spend above minimums on rider salaries, bonuses, and incentives at their discretion. Performance bonuses are negotiated entirely between team and rider.

4.5 Pro Debut Bonus

Every rider entering the NAMC for the first time as a professional receives a one-time **\$25,000 Pro Debut Bonus**, paid via electronic transfer within 5 business days of contract signing. Applies only to riders with no prior sanctioned professional racing experience **at any level** — including international leagues, factory programs, and developmental series. Does not apply to riders who previously held professional contracts in any league even if they never raced.

4.6 Reserve Rider (Bench) Compensation

Bench riders receive a flat **\$50,000 annual retainer**. When called up to active racing duty, the bench rider's compensation changes to the **full class minimum** for the class they are filling, prorated for the remainder of the season — but only **after completing one active race**. Until that first race is completed, the rider remains on the \$50,000 retainer. When the original starter returns, the bench rider reverts to the \$50,000 retainer.

4.7 Injured Reserve (IR) Provisions

Season-Ending Injury: The moment a rider's injury is medically determined to be season-ending — confirmed in writing by **two licensed physicians** — the rider's full annual contract is paid out immediately in one lump sum within 10 business days. No rider is ever abandoned due to injury.

Non-Season-Ending Injury: Riders on short-term IR continue to receive full salary for up to 6 weeks. Beyond 6 weeks, the rider and team negotiate continuation terms with the league minimum serving as the floor.

4.8 Sentinel-Triggered Concussion Protocol

A mandatory Return-to-Play protocol is initiated by Sentinel officials upon any observed head impact during competition or practice. Once triggered, the rider is immediately ineligible for further competition at that round. The rider may not return to competition at any subsequent round until cleared by a licensed medical professional through the NAMC standardized neurological assessment. No team, manager, or rider may override a Sentinel-triggered concussion protocol. Violation is a Tier 3 violation.

4.9 24-Hour Payment Rule

All rider payments — salary draws, appearance fees, purse earnings, bonuses, and debut bonuses — are processed and issued via electronic transfer within **24 hours of Sunday's final Main Event** at each round. Late payment by a charter team constitutes an automatic Tier 2 charter violation.

4.10 The NAMC Draft

Draft Timing: Annual draft held two weeks before the season opener.

Draft Order: Reverse standings — the team with the lowest Manufacturer's Cup finish from the prior season picks first. Year One draft order is determined by public lottery among all 20 charter holders.

No Pick Trading: Draft picks are non-transferable. Pure merit-based distribution.

Year One Pre-Contracted Riders: Factory charter teams may bring up to 2 pre-contracted riders; Independent Teams may bring 1. All remaining roster slots filled through the draft.

OVR Rating System

Rider vetting and draft eligibility are determined by a 1-100 metric system scored across five athletic pillars:

OVR Pillar	Description
Style / Scrub	Aesthetic quality and scrubbing technique
Technical Line Choice	Strategic course navigation and reading
Start Gate Jump	Holeshot explosiveness and reaction time
Race Endurance	Long-form mechanical and physical stamina
Track Awareness	Real-time course reading and adaptation
OVR Threshold	Status
50	League Average
70+	Watchlist Status — eligible for team scouting
80+	Full Draft Eligibility — cleared for selection

4.11 Path to Pros Ladder

The NAMC Path to Pros is the official developmental pipeline for athletes aspiring to professional competition:

Step	Stage	Ages	Notes
1	Beginner	4–7	Foundation skills development
2	Junior	8–11	Regional competition entry
3	Intermediate	12–14	National circuit exposure
4	Advanced	15–17	Elite amateur competition
5	NAMC Development Series	17–18	OVR vetting; 80+ required for draft eligibility

Inaugural Talent Exception (Years 1-3 only): Elite athletes exactly 18 years of age with verifiable global racing resumes may bypass the draft and enter as Free Agents upon unanimous Commission vote (9 of 9). This exception expires permanently at the conclusion of Year Three. Beginning Year Four, the draft is the exclusive entry mechanism.

4.12 Free Agent Pool

Riders not selected in the draft enter the **Free Agent Pool** at namcmotocross.com. The Pool opens the day after Draft Day and remains open throughout the season. Free agent contracts must meet all NAMC minimum compensation standards.

4.13 Substitute Rider System

- 250P starter injured → 250P bench rider activates
- 250 starter injured → 250 bench rider activates; if unavailable, 250P bench elevates to 250
- 350 Pro starter injured → 350 bench rider activates; if unavailable, 250 bench elevates to 350
- Women's 250 starter injured → Women's bench rider activates

When all bench riders in a class are depleted, the team must sign a free agent within 72 hours to maintain grid occupancy.

4.14 Contract Supremacy and Sponsor Disclosure

The NAMC contract is the supreme governing document for all participants. Upon execution, it supersedes all existing factory, manufacturer, or sponsor agreements.

4.14.1 — The 14-Day Window: Once drafted or signed as a free agent, a rider has 14 days to provide written proof of termination or suspension of any conflicting factory or manufacturer agreements.

4.14.2 — Activation Hold: During the 14-day window the rider may not train with the team, wear team colors, be listed on the active roster, or participate in any official NAMC activity. This hold is automatic upon contract execution.

4.14.3 — The 7-Day Team Buffer: If a rider fails to provide written proof within the 14-day window, the charter team receives an additional 7-day buffer. The team may continue to hold the pick or release the rider back to the Free Agent Pool. The team is held harmless in either case provided they acted in good faith.

4.14.4 — Team Protection: If a rider is ultimately blacklisted for undisclosed conflicts, the drafting team receives a compensatory first-round pick in the next available draft.

4.14.5 — Permanent Blacklist: Any rider found to have held an undisclosed conflicting contract at the time of signing is permanently blacklisted from the NAMC. The contract is void ab initio — void from the beginning — with no right of appeal. Terminal. Non-appealable.

Section 5.0 — Revenue Distribution and Payments

5.1 The 25% Rider Revenue Pool

The NAMC commits a minimum of **25% of all league gross revenue** to the rider revenue pool each season. This pool is distributed among all contracted riders at the conclusion of the season based on race starts. This pool is separate from and in addition to all guaranteed salary, appearance fees, and purse earnings.

5.2 Round Purse

The NAMC distributes an **\$800,000 round purse** across all four championship classes at every round. All purse payments are processed within 24 hours of Sunday's final Main Event.

Class	Win Payout	40th Place Minimum
350 Pro	\$75,000	\$5,000
250	\$40,000	\$5,000
250P	\$20,000	\$5,000
Women's 250	\$20,000	\$5,000

5.3 Track Revenue Model

The NAMC pays every host track a flat **\$75,000 TV Hosting Fee** per round. Track partners retain **100% of all gate admissions, concessions, parking, camping, and local sponsorship revenue** generated during the event weekend.

Zero-Fee Policy: The NAMC charges exactly **\$0 in sanctioning fees** to any host facility. The financial burden of professional racing is shifted entirely from the track to the league. This is a permanent structural commitment, not a promotional offer.

Fan Pricing Standards: 2027 inaugural season: \$0 for all fans — adults, minors, and paddock access. From 2028 forward: maximum cap of \$10 adults / \$5 minors. These pricing caps are **contractual requirements for track eligibility**. Failure to adhere results in the **immediate termination of the \$75,000 TV Hosting Fee** for that round. No exceptions.

Force Majeure: If a round is cancelled due to natural disaster or act of God, the NAMC reimburses 100% of documented direct operational costs to the track. Lost revenue, projected income, and indirect expenses are excluded. Itemized receipts must be submitted within 30 days.

5.4 Payment Standards

All rider salary payments are processed via electronic transfer. No cash. No checks. All payments are logged in the NAMC payment system and available for audit at any time. Late payment by a charter team triggers an automatic Tier 2 charter violation without warning.

Section 6.0 — Number Plates and Legacy Program

6.1 F1-Style Championship Number System

The NAMC uses an **F1-style championship standing number system**. At the conclusion of each season, a rider's competition number for the following season is determined by their finishing position in the Rider's Cup standings. The rider who finishes 1st in the 350 Pro Championship carries **Number 1** the following season. All other numbers assigned by finishing position in sequence.

Year One numbers are assigned by draft order and lottery within each class. Once assigned, numbers are retained for the full season regardless of standings movement. Number reassignment occurs only at the start of each new season.

6.2 The Legacy Number Program

Upon retirement, any rider who has held Number 1 in any NAMC championship class for three or more seasons may apply to the NAMC Legacy Number Program. Upon Commission approval, their number is retired permanently — never reissued. The Legacy Number is displayed permanently at NAMC's home venue and on the official namcmotocross.com Legacy Wall.

The first Legacy Number ceremony will be held at the Glen Helen finale at the conclusion of Year Three.

6.3 Number Plate Visual Standards

Number plates must conform to NAMC visual specifications: white background, numbers in Championship Chrome (#C7C9CC) with Carbon Black (#0B0B0D) outline. Team livery may appear on the plate border but may not obstruct number visibility at any time.

Section 7.0 — Paddock Allocation, Operations, and Hospitality

7.1 Paddock Space Allocation

Paddock space is allocated by the NAMC League Office in coordination with each host track. Factory charter teams receive a primary paddock allocation of 60 linear feet. Independent Team charter holders receive 40 linear feet. All allocations include access to NAMC-provided power, water, and broadcast infrastructure.

Paddock position assignments are issued 14 days before each round. Year One paddock assignments prioritize equitable visibility — no team may be systematically placed in low-visibility positions across multiple consecutive rounds.

7.2 Set-Up and Strike Schedule

- Thursday: Paddock opens at 8:00 AM. Teams may begin set-up.
- Friday: Track walk, technical inspection, open practice.
- Saturday: 250P and Women's 250 Sprint Race + Main Event.
- Sunday: 350 Pro and 250 Sprint Race + Main Event.
- Sunday post-race: Paddock must be cleared within 4 hours of the final podium ceremony.

7.3 Fan Access

The paddock is a professional working environment. All teams must designate a minimum 10-foot fan engagement zone at the front of their paddock. Teams that restrict all fan access face a Tier 1 charter violation. Direct athlete-fan connection is a non-negotiable feature of the NAMC paddock experience.

7.4 NAMC League-Provided Infrastructure

The NAMC provides the following at every host venue at no cost to the track or teams:

- **Track Preparation Team:** NAMC provides a professional track prep crew to work alongside facility staff before each event, ensuring the circuit meets elite professional standards while reducing labor burden on the track owner.
- Level 4 catch fencing at all high-risk areas — installed by NAMC and left permanently at the facility
- Inflatable impact bags at all sweeping corners and rapid deceleration zones
- Padded forest line protection at all venues with wooded perimeter proximity
- Corner protection systems at all technical sections
- Standardized medical stations with full trauma protocols and ambulance services
- Broadcast Starlink connectivity — high-speed internet for the entire venue
- Professional transponder timing and scoring systems and electronic display boards

All safety infrastructure installed by the NAMC remains the **permanent property of the host facility**.

Section 8.0 — Tire Rules and Manufacturer Regulations

8.1 Open Tire War

The NAMC operates an **open tire war**. All tire manufacturers are permitted to compete. Teams and riders are free to select any tire brand and compound they choose. There is no spec tire. This policy encourages technical innovation and creates meaningful marketing differentiation among tire manufacturers.

8.2 Commercial Availability Requirement

All tires used in NAMC competition must be **commercially available** to Independent Team riders through normal retail or dealer channels. Factory-only restricted rubber compounds are strictly prohibited. This ensures Independent Team riders are never technically disadvantaged by inaccessible factory rubber.

8.3 Permanent Scoop Tire Ban

The use of "Scoop" or "Paddle" style tires is **permanently banned** for all classes at all NAMC rounds, regardless of soil conditions, weather, or venue. This ban protects the long-term integrity of host facility track surfaces.

Penalty: Violation results in **immediate disqualification from that round** and a **non-appealable terminal violation status**. There is no warning. There is no second offense. Discovery of scoop or paddle tires on any competing motorcycle at any point during the race weekend — practice, qualifying, or race — constitutes a terminal violation. All results from that round are forfeited.

8.4 Five-Step Engine Homologation Process

Any new engine architecture seeking NAMC competition clearance must complete the full five-step homologation process:

Step	Name	Description
1	Disclosure	Full technical schematics and material lists submitted to the NAMC Technical Committee.
2	Chuckwalla Testing	Real-world performance evaluation at Chuckwalla Valley Raceway under CVMA supervision.
3	Safety Audit	Detailed failure-point analysis and crash-safety certification by independent engineers.
4	BOP Baseline	Performance comparison against the 350 Pro baseline. Commission determines restrictor or ballast adjustments.
5	Certification	Final Commission vote. Approved engines receive NAMC Homologation Papers — VIN-specific and engine-block serialized.

8.5 250P Restricted Spec Technical Standards

- **NAMC Spec ECU:** Mandatory league-issued electronic control unit with locked mapping. Any modification = terminal violation.
- **Intake Restrictor Plate:** Mandatory installation of NAMC-certified restrictor plate. Removal, modification, or bypass = terminal violation.

ECU/Intake Manipulation: TERMINAL VIOLATION: VOID AB INITIO. NO APPEAL. NO EXCEPTIONS. PERMANENT BLACKLIST.

Section 9.0 — Media Obligations and Rider Conduct

9.1 Professional Standard

Every NAMC participant is a paid professional. Acceptance of NAMC competition constitutes an agreement to conduct oneself professionally at all times — on the track, in the paddock, and at all official NAMC events. The league's jurisdiction is limited to NAMC events, venues, and official activities.

9.2 Mandatory Post-Race Media

The top three finishers in every Main Event are required to participate in the official post-race broadcast interview immediately following the podium ceremony. Refusal constitutes a Tier 2 conduct violation. All riders must remain media-available in the paddock for a minimum of 45 minutes following their final Main Event on Sunday.

9.3 Broadcast Conduct Requirements

All riders must ensure primary team sponsor branding is clearly visible during all broadcast activities. Broadcast language standards apply to all NAMC media. Profanity, discriminatory language, and conduct that demeans competitors, officials, or the sport are conduct violations subject to Section 13.0.

9.4 Social Media and Public Communications

Riders are encouraged to be active, authentic voices on social media. The NAMC does not restrict rider expression on personal channels. Prohibited:

- Deliberate false statements about NAMC officials, competitors, or the league that could expose the NAMC to legal liability.
- Disclosure of confidential NAMC business information including financial terms, Commission deliberations, or pending disciplinary matters.
- Content constituting harassment, threats, or discrimination against any person.

9.5 Flag Protocol

Flag	Meaning	Required Action
Green	Track clear, racing	Full competition speed
Yellow (Waved)	Hazard ahead	Reduce speed; no passing in affected zone
Double Yellow	Major hazard / stopped rider	Significant speed reduction; prepared to stop
Red	Session stopped	Return to starting area immediately
White	Final lap	Maximum effort — last lap of race
Checkered	Finish	Cross line, slow down, proceed to designated area
Black (with number)	Rider called in	Report to designated Sentinel immediately
Blue	Faster class approaching	Yield to approaching rider in practice

9.6 Energy Drink and Stimulant Brand Prohibition

Energy drink and stimulant beverage companies are **permanently banned** from all NAMC team names. A team may carry energy drink sponsorship and display that branding on bike and kit, but the team name itself may not include any energy drink or stimulant beverage brand. This policy applies to all 20 charters and all future charter holders in perpetuity.

Section 10.0 — Schedule and Event Operations

10.1 2027 Season Overview

The 2027 inaugural NAMC season consists of **20 rounds — 20 race weekends** over a **24-week calendar** from the March opener to the September finale. Bye weeks are calendar weeks only — they are not race weekends and do not count toward the 20-round total. All rounds are conducted on natural-terrain outdoor motocross circuits. Stadium, supercross, and indoor formats are permanently eliminated.

Metric	Specification
Total Championship Rounds	20 rounds — 20 race weekends
Season Opener	R01 — Fox Raceway, Pala, CA — March 27-28, 2027
Season Finale	R20 — Glen Helen Raceway, Devore, CA — September 11-12, 2027
Calendar Span	24-week calendar (March through September)
Bye Weeks	5 scheduled non-race weeks (3 standard + 2 maritime)
Total Professional Riders	160 across four classes (40 per class)
Races Per Weekend	12 total races (Sprint + Main Event × 4 classes)
Geographic Scope	United States, Canada, Mexico
Round Purse	\$800,000 per round across all classes
Fan Ticket Price (2027)	\$0.00 — Adults, Minors, and Paddock Access

10.2 2027 Master Racing Calendar

Round	Date	Venue	Location	Nation	Notes
R01	Mar 27-28	Fox Raceway	Pala, CA	USA	OPENER
R02	Apr 3-4	Estero Beach MX	Ensenada, BC	MEX	International
R03	Apr 10-11	Competitive Edge MX	Adelanto, CA	USA	Standard
R04	Apr 17-18	Motoland MX Park	Casa Grande, AZ	USA	Standard
—	Apr 24-25	BYE WEEK 1	Rider Rest	—	—
R05	May 1-2	Hangtown MX	Rancho Murieta, CA	USA	Standard
R06	May 8-9	Washougal MX Park	Washougal, WA	USA	Standard
R07	May 15-16	Motopark MX	Chilliwack, BC	CAN	International
R08	May 22-23	Big Air Motocross	Big Sky, MT	USA	Standard
R09	May 29-30	Thunder Valley MX	Lakewood, CO	USA	Standard
R10	Jun 5-6	Freestone MX	Wortham, TX	USA	Standard
R11	Jun 12-13	Spring Creek MX	Millville, MN	USA	MAX JUMP
R12	Jun 19-20	Ironman Raceway	Crawfordsville, IN	USA	Standard
R13	Jun 26-27	RedBud MX	Buchanan, MI	USA	Standard
—	Jul 3-4	BYE WEEK 2	Rider Rest	—	—
R14	Jul 10-11	Southwick MX	Southwick, MA	USA	Standard
R15	Jul 17-18	High Point Raceway	Mt. Morris, PA	USA	Standard
R16	Jul 24-25	Budds Creek MX	Mechanicsville, MD	USA	Standard
—	Jul 31-Aug 1	BYE WEEK 3	Drive West	—	—
R17	Aug 7-8	Whistler MX	Whistler, BC	CAN	OPENER
R18	Aug 14-15	Anchorage MX	Anchorage, AK	USA	Geographic Exception
—	Aug 21-22	MARITIME BYE 4	Ocean Freight to Hawaii	—	Ocean Freight
R19	Aug 28-29	Waikoloa MX	Waikoloa, HI	USA	OPENER
—	Sep 4-5	MARITIME BYE 5	Ocean Freight to LA	—	Ocean Freight
R20	Sep 11-12	Glen Helen Raceway	Devore, CA	USA	SEASON FINALE

10.3 The 1,000-Mile Travel Rule

No two consecutive championship rounds shall require teams to travel more than **1,000 miles** without a mandatory intervening bye week. This rule protects the physical and logistical welfare of riders, crews, and Independent Team riders. The 2027 calendar is built across a **24-week schedule with 20 race weekends** and 5 non-race bye weeks to ensure full compliance throughout the season.

Geographic Exceptions: Rounds requiring ocean transport to Alaska and Hawaii are exempt from the 1,000-mile mileage calculation but require a minimum one-week maritime bye week for ocean freight logistics.

The Finale Sequence (Rounds 17-20) is the only pre-approved geographic exception sequence. NAMC Operations coordinates and funds 100% of heavy ocean freight for all motorcycle equipment and team hardware for the Anchorage-to-Hawaii and Hawaii-to-Los Angeles legs. Charter teams are responsible for their own personnel travel.

10.4 The Finale Sequence Operations

Event	Logistics
R17 — Whistler MX (Aug 7-8)	Teams transit from mainland BC into Whistler venue.
R18 — Anchorage MX (Aug 14-15)	Following R18 podium, all bikes and equipment loaded into NAMC containers immediately.
Maritime Bye Week 4 (Aug 21-22)	Ocean Freight Pipeline Stage 1: Anchorage to Hawaii.
R19 — Waikoloa MX (Aug 28-29)	Hawaii Showcase. Following R19 podium, equipment reloaded for Stage 2.
Maritime Bye Week 5 (Sep 4-5)	Ocean Freight Pipeline Stage 2: Hawaii to Port of Los Angeles.
R20 — Glen Helen Raceway (Sep 11-12)	Season Finale. Manufacturer's Cup presentation. NAMC Legacy Number Ceremony.

Section 11.0 — Championships and Awards

11.1 Individual Rider's Cup Championships

- **350 Pro Rider's Cup** — the premier professional championship
- **250 Rider's Cup** — the national spec championship
- **250P Rider's Cup** — the restricted spec championship
- **Women's 250 Rider's Cup** — full professional championship with equal pay and status

A rider must have started in a minimum of 10 rounds to be eligible for championship consideration.

11.2 Rider's Cup Points System — Full 40-Position Scale

Main Event (1.0x weight):

Pos	Pts	Pos	Pts	Pos	Pts	Pos	Pts
1st	25	11th	10	21st	1	31st	1
2nd	22	12th	9	22nd	1	32nd	1
3rd	20	13th	8	23rd	1	33rd	1
4th	18	14th	7	24th	1	34th	1
5th	16	15th	6	25th	1	35th	1
6th	15	16th	5	26th	1	36th	1
7th	14	17th	4	27th	1	37th	1
8th	13	18th	3	28th	1	38th	1
9th	12	19th	2	29th	1	39th	1
10th	11	20th	1	30th	1	40th	1

Sprint Race (0.5x weight):

Pos	Pts	Pos	Pts	Pos	Pts	Pos	Pts
1st	12.5	11th	5.0	21st	0.5	31st	0.5
2nd	11.0	12th	4.5	22nd	0.5	32nd	0.5
3rd	10.0	13th	4.0	23rd	0.5	33rd	0.5
4th	9.0	14th	3.5	24th	0.5	34th	0.5
5th	8.0	15th	3.0	25th	0.5	35th	0.5
6th	7.5	16th	2.5	26th	0.5	36th	0.5
7th	7.0	17th	2.0	27th	0.5	37th	0.5
8th	6.5	18th	1.5	28th	0.5	38th	0.5
9th	6.0	19th	1.0	29th	0.5	39th	0.5
10th	5.5	20th	0.5	30th	0.5	40th	0.5

11.3 Rider's Cup Tiebreakers

In the event of a tied points total in any individual Rider's Cup championship at season end:

- Most Main Event victories in the tied class
- Most podium finishes (top 3) in the tied class
- Head-to-head points in the final three rounds of the season
- Final determination by the NAMC Chief Sentinel — non-appealable

11.4 Manufacturer's Cup

The Manufacturer's Cup is the aggregate factory championship — awarded to the manufacturer whose riders accumulate the highest total points across all four classes combined throughout the 20-round season. Points from all eight active roster riders (2 per class) are summed.

Weighted Scoring Formula: Sum of (Sprint Race Points × 0.5) + Sum of (Main Event Points × 1.0) for all eight factory-supported riders across all four classes per round.

Mathematical Elimination Rule: Any manufacturer failing to enter at least one rider in every one of the four sanctioned classes at a specific round is automatically eliminated from the Manufacturer's Cup standings for that event. No partial points awarded.

The Manufacturer's Cup trophy is designated as **the biggest trophy in the sport**. Presented at the Glen Helen Season Finale alongside the NAMC Legacy Number Ceremony.

11.5 Manufacturer's Cup Tiebreakers

In the event of a tied aggregate points total in the Manufacturer's Cup standings:

- Highest finishing position in the 350 Pro Main Event across the tied rounds
- Highest cumulative laps led across all four Main Events for the season
- Final determination by the CVMA Governance Console — non-appealable

11.6 Season Championship Finality

All season standings are verified and certified by the CVMA Governance Console before the Glen Helen trophy presentation. Championship standings are final once certified. The Glen Helen Season Finale — September 11-12, 2027 — is the official conclusion of the 2027 NAMC season.

Section 12.0 — Technical Regulations

12.1 Technical Inspection

Every competing motorcycle must pass a full technical inspection before being cleared for competition. Inspection occurs on Friday of each round weekend. Motorcycles that fail inspection may be corrected and re-submitted once before being excluded from that round. Post-race technical checks on the top three Main Event finishers are mandatory at every round.

12.2 Displacement Limits

Class	Maximum Displacement	Architecture
350 Pro	350cc	4-Stroke
250	250cc	4-Stroke
250P	250cc (restricted via spec ECU and intake plate)	4-Stroke
Women's 250	250cc	4-Stroke

12.3 Safety Equipment Requirements

All riders must wear the following in every practice session, qualifying heat, and race:

- Full-face helmet — NAMC certified or equivalent international certification
- Chest protector / body armor
- Knee braces or knee guards
- Boots — motocross-specific, above ankle
- Gloves

A rider competing without required safety equipment is immediately black-flagged and excluded from that session.

12.4 Terminal Technical Violations

Violation	Classification	Consequence
ECU Manipulation (250P)	Technical Fraud	TERMINAL VIOLATION: VOID AB INITIO. NO APPEAL. NO EXCEPTIONS. PERMANENT BLACKLIST.
Intake Restrictor Plate Modification	Technical Fraud	TERMINAL VIOLATION: VOID AB INITIO. NO APPEAL. NO EXCEPTIONS. PERMANENT BLACKLIST.
Age Floor Violation (under 18)	Eligibility / Safety Violation	TERMINAL VIOLATION: PERMANENT BLACKLIST. NO APPEAL. NO EXCEPTIONS.
Scoop / Paddle Tire Usage	Surface Preservation Violation	TERMINAL VIOLATION: DQ from round. Non-appealable. First offense.
Displacement Limit Violation	Technical Spec Violation	DQ from round; all points forfeited; Commission review within 14 days.
Non-Homologated Engine	Technical Spec Violation	DQ; all round points forfeited; Commission review within 14 days.

Section 13.0 — Penalties and Appeals

13.1 Four-Tier Graduated Penalty System

Tier	Trigger	Penalty
Tier 1 — Warning	Minor first-time violation	Written warning logged in charter record. Two Tier 1s in one season = automatic Tier 2.
Tier 2 — Fine	Moderate violation or repeat Tier 1	Financial penalty set by Commission. 100% of fines directed to the Rider Welfare Fund.
Tier 3 — Suspension	Serious violation or repeat Tier 2	Barred from 1-4 consecutive rounds. All points and purse earnings for suspended rounds forfeited. No replacement rider permitted.
Tier 4 — Charter Revocation	Egregious, repeated, or fraudulent conduct	Charter permanently revoked. Owner banned from future NAMC ownership. All roster riders become free agents immediately.

13.2 Anti-Doping

The NAMC operates under the **USADA/WADA Anti-Doping Code**. All contracted riders are subject to random testing at any point during the season including bye weeks. Positive tests are adjudicated under the WADA Code. All doping matters are referred to the appropriate authority — the NAMC does not conduct independent doping adjudication.

A rider serving a USADA/WADA suspension is placed on IR status. Salary continues per Section 4.7 provisions. The charter team receives a bench rider activation credit for the duration of the suspension.

13.3 The Court of Appeal

Eligible disputes are escalated to the CVMA-sanctioned **Court of Appeal**. A non-refundable **\$500 filing fee** is required. The Court of Appeal consists of three CVMA-appointed arbiters with no financial relationship to any NAMC charter holder. Decisions are rendered within 14 days of petition submission and are final.

Non-Appealable Violations — Terminal determinations that cannot be appealed under any circumstances:

- Technical Fraud — ECU or Intake Restrictor Plate manipulation
- Age Floor Violations — 18+ hard floor breach
- Scoop / Paddle Tire Usage — first offense is terminal
- Contractual Fraud — undisclosed conflicting contracts (Section 4.14.5)
- Safety Audit Failures resulting in Tier 4 charter action

13.4 Rider Appeals

A rider who receives a Tier 2, 3, or 4 penalty may appeal through the Court of Appeal within 7 days of penalty notification. The \$500 fee applies. Terminal violations are not subject to appeal. Mid-round Chief Sentinel rulings on racing incidents are final race-day determinations — not subject to appeal.

13.5 Rider Welfare Fund

100% of all fines collected under the four-tier system are directed to the **NAMC Rider Welfare Fund**. The Fund is administered jointly by the NAMC League Office and a three-rider panel elected annually by all contracted riders. Fund distributions provide emergency rider assistance, injury support beyond IR provisions, and end-of-season distribution to all riders who competed in a minimum of 10 rounds.

Section 14.0 — Definitions and Glossary

The following definitions apply to all sections of this rulebook and carry the meaning assigned here unless explicitly stated otherwise.

18+ Hard Floor

The absolute minimum age of 18 years for any NAMC professional participant. No exceptions, no waivers, no developmental exemptions of any kind.

Appearance Fee

The \$1,000 per-round guaranteed payment issued to every contracted rider for all 20 race weekends only. Bye weeks are not paid.

BOP (Balance of Power)

The technical adjustment process — restrictor plates, ballast weights — used to maintain competitive parity between different engine architectures.

Bench / Reserve Rider

A contracted rider holding a \$50,000 annual retainer, pre-approved to activate as a replacement for an injured or suspended active roster rider. Full class minimum salary begins after completing one active race.

Bye Week

A scheduled non-race calendar week for rider rest, travel logistics, or maritime freight. Bye weeks are not race weekends and do not count toward the 20-round total. Appearance fees are not paid during bye weeks.

Charter

A protected franchise right to field a team in NAMC competition. A business asset that can be transferred, sold, or used as collateral subject to NAMC approval.

Chief Sentinel

The commander of the 24-member Sentinel officiating corps. Field-level enforcement authority. Race-day rulings are final and non-appealable.

Claw Marks

The official NAMC secondary branding element. Primary symbol of speed and rebellion. Non-negotiable — must appear on all secondary branding and apparel.

Court of Appeal

The CVMA-sanctioned arbitration body for eligible disputes. Requires a \$500 non-refundable filing fee. Decisions are final.

CVMA

Chuckwalla Valley Motorcycle Association. The official sanctioning body for all NAMC events.

Draft

Annual talent selection process held two weeks before the season opener. Reverse standings order. No pick trading permitted.

Force Majeure

Natural disaster or act of God event triggering NAMC reimbursement of 100% of documented direct operational costs to the affected host track.

Free Agent

An eligible uncontracted rider available for signing via namcmotocross.com.

Glen Helen Raceway

The official Season Finale venue, Devore, California. Host of the Manufacturer's Cup presentation and the NAMC Legacy Number Ceremony.

Independent Team rider

The mandatory term for all non-factory participants. "Privateer" is strictly prohibited.

Inaugural Talent Exception

The Years 1-3 provision allowing 18-year-old elite athletes with verified global resumes to bypass the draft and enter as free agents via unanimous Commission vote. Expires permanently after Year Three.

IR (Injured Reserve)

Protected status for injured riders. Season-ending IR triggers full contract payout within 10 business days, confirmed by two licensed physicians.

Legacy Number

A retired competition number awarded to a rider who held Number 1 in any NAMC class for three or more seasons. Never reissued once retired.

Main Event

Primary championship race: 35 minutes + 2 laps. Weighted at 1.0x for Manufacturer's Cup scoring.

Manufacturer's Cup

The aggregate team championship — sum of all points earned by all eight active roster riders across all four classes throughout the 20-round season. The biggest trophy in the sport.

Management Failure

The classification assigned when a charter team fails to field a rider for any assigned gate position. Creates an unrecoverable points deficit in the Manufacturer's Cup. Does not result in immediate disqualification of other team riders.

Maritime Bye Week

A scheduled non-race week specifically for ocean freight logistics during the Finale Sequence.

NAMC

North American Motocross Championship. The operating league and sole sanctioning body for all events conducted under its authority.

NAMC Commission

The nine-member supreme governing body of the league.

OVR Rating

A 1-100 metric system scoring riders across five pillars: Style/Scrub, Technical Line Choice, Start Gate Jump, Race Endurance, and Track Awareness. 80+ required for full draft eligibility.

Pro Debut Bonus

A one-time \$25,000 payment to first-time NAMC professionals with no prior sanctioned professional racing experience at any level. Paid within 5 business days of contract signing.

Race Weekend

A Saturday-Sunday competition event producing Sprint Race and Main Event results in all four classes and counting toward championship standings. There are exactly 20 race weekends in the 2027 season.

Rider Welfare Fund

The fund receiving 100% of all charter team fines. Administered jointly by the NAMC League Office and a three-rider elected panel.

Round

A single race weekend — one of 20 in the 2027 season.

Round Purse

The \$800,000 total prize money distributed across all four classes at every round.

Sentinel

A member of the 24-person NAMC officiating corps (12 traveling + 12 local).

Sprint Race

Secondary championship race: 12 minutes + 1 lap. Weighted at 0.5x for Manufacturer's Cup scoring.

Terminal Violation

A violation resulting in immediate, permanent, non-appealable consequences including permanent blacklist. Applies to ECU manipulation, intake plate modification, age floor violations, scoop tire usage, and undisclosed conflicting contracts.

The 1,000-Mile Rule

Regulation prohibiting consecutive rounds from requiring more than 1,000 miles of travel without an intervening bye week.

The Claw Marks

See: Claw Marks.

The Finale Sequence

Rounds 17-20: Whistler → Anchorage → Waikoloa → Glen Helen. The only pre-approved geographic exception sequence in the season calendar.

The Rising Tide

The official NAMC tagline. When riders are paid fairly, facilities are invested in, and the sport is made accessible to fans — everyone rises together.

Track Earth

Official NAMC brand color #3A2A1E — natural loam reference representing the outdoor terrain identity of the championship.

TV Hosting Fee

The \$75,000 flat fee paid by the NAMC directly to every host track at each round.

Unified Gate

The 40-rider single-gate format used in all NAMC classes. A-Main/B-Main split is permanently eliminated.

Void Ab Initio

Legal term: void from the beginning. Applied to NAMC contracts where undisclosed conflicting agreements existed at the time of signing.

Year One

The 2027 inaugural NAMC season. S4 Four-Stroke Championship only. 20 rounds. Fox Raceway opener to Glen Helen finale.

Zero-Fee Policy

The NAMC charges exactly \$0 in sanctioning fees to any host facility. Permanent structural commitment.

Appendix A — Outdoor Race Weekend Official Track Schedule

The following schedule governs all 20 race weekends of the 2027 NAMC season. All times are local to the venue. Subject to modification by the Chief Sentinel for safety or weather. Any modification must be communicated to all teams a minimum of 2 hours in advance.

Time	Activity	Classes
FRIDAY — PRACTICE & PRESS DAY		
8:00 AM	Paddock Opens — Team Setup Begins	All Teams
9:00 AM	Technical Inspection Opens	All Classes
11:00 AM	Official Track Walk — Riders and Team Managers	All Classes
1:00 PM	Free Practice Session 1	All Classes (rotating 20-min blocks)
3:00 PM	Free Practice Session 2	All Classes (rotating 20-min blocks)
5:00 PM	Timed Qualifying — Group A	250P + Women's 250
6:00 PM	Timed Qualifying — Group B	350 Pro + 250
7:00 PM	Mandatory Media Availability	All Classes
8:00 PM	Paddock Closes	—
SATURDAY — 250P AND WOMEN'S 250 RACING DAY		
7:00 AM	Paddock Opens	All Teams
8:30 AM	Rider Sign-On and Transponder Verification	250P + Women's 250
9:00 AM	Gate Pick — Based on Friday Qualifying Results	250P + Women's 250
10:00 AM	250P Sprint Race — 12 min + 1 lap	250P
11:15 AM	Women's 250 Sprint Race — 12 min + 1 lap	Women's 250
12:15 PM	Lunch Break	—
1:30 PM	250P Main Event — 35 min + 2 laps	250P
3:00 PM	Women's 250 Main Event — 35 min + 2 laps	Women's 250
4:30 PM	Saturday Podium Ceremony	250P + Women's 250
5:00 PM	Broadcast Interviews — Top 3 finishers mandatory	250P + Women's 250
5:30 PM	General Media Availability	All Riders
SUNDAY — 350 PRO AND 250 SHOWCASE FINALS		
7:00 AM	Paddock Opens	All Teams
8:30 AM	Rider Sign-On and Transponder Verification	350 Pro + 250
9:00 AM	Gate Pick — Based on Friday Qualifying Results	350 Pro + 250
10:00 AM	250 Sprint Race — 12 min + 1 lap	250
11:15 AM	350 Pro Sprint Race — 12 min + 1 lap	350 Pro
12:15 PM	Lunch Break	—
1:30 PM	250 Main Event — 35 min + 2 laps	250
3:15 PM	350 Pro Main Event — 35 min + 2 laps	350 Pro

Time	Activity	Classes
5:00 PM	Sunday Podium Ceremony — All Classes	All Classes
5:30 PM	Broadcast Interviews — Top 3 finishers mandatory	All Classes
6:00 PM	General Media Availability	All Classes
6:00 PM	Payment Processing Begins — 24-hour clock starts	NAMC League Office
10:00 PM	Paddock Strike Deadline	All Teams

Appendix B — Bench Rider Activation Protocol

This appendix defines the official procedure for activating a bench/reserve rider following an injury, suspension, or other roster vacancy.

Step	Action	Timeline	Authority
1	Injury confirmed or vacancy identified	Immediately following incident	Team Manager
2	Team Manager contacts NAMC League Office by phone	Within 1 hour of incident	Team Manager
3	League Office verifies bench rider pre-approval status	Within 30 minutes of contact	NAMC League Office
4	Bench rider activation confirmed in writing	Within 2 hours of initial contact	NAMC League Office
5	Bench rider added to active gate list	Before next session begins	Chief Sentinel
6	Bench rider completes first active race	Upon race completion	—
7	Bench rider compensation changes to full class minimum	After first active race completed	NAMC League Office
8	Medical clearance for original rider upon return	2 licensed physician sign-off required	Team / NAMC Medical

Emergency Free Agent Signing Protocol (when all bench riders are depleted):

Step	Action	Requirement
1	Medical Trigger	Official confirmation by two licensed physicians that the starting rider cannot compete.
2	Pool Selection	Team selects rider from Free Agent Pool (OVR 80+ preferred).
3	Contract Execution	Standard NAMC appearance agreement executed within 72 hours of vacancy.
4	Points Transfer	Points earned by substitute contribute to Team standings and Manufacturer's Cup immediately.
5	Original Rider Return	If original rider returns, free agent reverts to Free Agent Pool unless team chooses to retain.

NORTH AMERICAN MOTOCROSS CHAMPIONSHIP

OFFICIAL RULEBOOK — v15.1 — June 23, 2026

Sanctioned by the Chuckwalla Valley Motorcycle Association (CVMA)

This rulebook represents the complete regulatory framework for the 2027 NAMC inaugural season. All participants — riders, team managers, charter owners, track partners, officials, and media — are bound by the provisions herein. The NAMC Commission reserves the right to issue amendments and clarifications in accordance with Section 1.10. All amendments are published on namcmotocross.com and communicated directly to all charter teams.

The Rising Tide.
